WORK EXPERIENCE

REAL COMMODITY

Orlando, FL

Volunteer Lead Developer (Full-Stack)

May 2023 – Present

- Led a team of 6 developers to architect and deploy a full-stack shift scheduling solution adopted by 1,000+ users.
- Replaced an expensive third-party tool, saving the organization \$1,000+ annually by eliminating the monthly fee.
- Engineered an automated solution using Playwright to extract form data and inject it into a Kanban board, introducing an Agile workflow that reduced assignment turnaround time by 20% (from 5 days to 4 on average).
- Upgraded internal operations by leading a full migration from a legacy productivity platform to a self-hosted Nextcloud instance, delivering a more robust platform with 3x faster page load times (from 6s to >2s).

PROJECTS

Shift Management App | Dart, Flutter, SvelteKit, TypeScript, Supabase (PostgreSQL)

- Architected the initial cross-platform mobile application using Dart/Flutter SDK, enabling deployment on iOS and Android simultaneously and expanding accessibility to 1,000+ users across diverse device types.
- Implemented Clean Architecture to create a modular, testable codebase that allowed 6 other members to contribute simultaneously to a GitHub repository without merge conflicts.
- Designed the database schema in Supabase (PostgreSQL) with RLS policies, ensuring 1000+ users could access only their own data while maintaining relational integrity.
- Spearheaded the pivot to the web by leading the rewrite of the mobile app into a Progressive Web Application (PWA) using SvelteKit, enabling desktop access and increasing user engagement by 33%.

Ubuntu Server Home Lab | Linux, Bash, Docker, Networking, PostgreSQL

- Maintained a production-grade Ubuntu home lab for 3+ years, orchestrating 30+ Docker containers including AdGuard Home (network-wide ad blocking), an analytics platform, a Minecraft server, and a media server - demonstrating advanced Linux system administration, networking, and DevOps fundamentals.

EDUCATION

University of Central Florida

Orlando, FL

Bachelor of Science, Information Technology (Incomplete) | GPA: 3.5

Jan 2024 – May 2025

- **Relevant Coursework:** Database Management Systems, Technical Writing

Valencia College

Orlando, FL

Associate in Arts, General Education

Graduated Dec 2023

SKILLS

FRONT END: JavaScript/TypeScript, HTML, CSS, React, SvelteKit, Dart, Flutter, Responsive Design, UI/UX Design

BACK END: Node.js, PostgreSQL, MySQL, Firebase, Supabase, PL/pgSQL

DEVOPS & TOOLS: Git/GitHub, Docker, Linux, Bash, Playwright, CI/CD, Web Hosting, Domain Management
